## SCORES FREE TOLL PLAN FOR AMERICAN SHIPS

Would Be Fraud in Interests of Trust, Says Representative Britten.

"Free passage of American coastwise ships through the Panama canal would be one of the most unfair, unjust, dishonorable and high handed injurious things Congress has ever permitted. It would be a palpable fraud in the interest of the ship trust and the big interests."

Thus does Representative Britten of Illinois, a democrat, characterize the much discussed question of Panama tolls concerning which he introduced a bill into the House today to repeal the toll exemption clause of the Panama canal act. The bill would place all vessels on the same rate level. The bill would also amend the interstate commerce act in the enumeration of the carriers and transportation subject to the act by adding the words "all vessels engaged in the coastwise trade of the United States," thus placing all coastwise vessels under the rules and regulations of the interstate commerce commission as applied to railroads and other common carriers.

**Oppose Platform Plank.** Although the democratic platform has a plank favoring free passage of American coastwise ships through the canal, there are many democrats, especially in the House of Representatives, who believe that the existence of treaties stands like a mountain range between the wish as expressed in the platform and the honorable performance of a duty as pledged in a treaty.

Representative Britten, in explaining his bill, says that the clause in the Panama canal act exempting coastwise trade from tolls is not only in contravention of the Hay-Pauncefote treaty, but also in conflict with the treaty under which the United States obtained title to the Canal Zone.

"The United States obtained through a treaty the right to dig the canal," he explained, "and in that treaty we agreed to certain conditions. Now the United States cannot afford to take the position before the world that it does not intend to observe this agreement in every respect."

**Sees Ship Subsidy.** "The insertion of the exemption clause in the canal act has a veiled ship subsidy with so thin a disguise that every one can see through it. Time and again democratic leaders have thundered against the iniquity of voting money out of the treasury to sustain either American industry or American merchant marine. Yet under the disguise of a discrimination in favor of coastwise American ships passing through the canal have been granted to grant that shipping exactly what they are doing."

Mr. Britten said that the Panama canal act as it now stands would grant a million dollars a year to the shipping trust the first year the canal is in operation.

**CARDINAL SENDS MESSAGE.** The Roman Catholic pastors of the archdiocese of Baltimore, which includes Washington, have received a note from Cardinal Gibbons giving the conditions for the observance of the general jubilee to commemorate the sixteenth centenary of the peace bestowed upon the church through the edict of Milan, proclaimed by the Emperor Constantine in the year of Our Lord 313.

The conditions follow: "In Baltimore and Washington two visits to the three churches which are nearest the Holy Father and most conveniently reached by the faithful."

"In all other places in the diocese six visits to the parish church."

"The visits may be made on the same day or on different days."

"No special formula of vocal prayer for the devotion of the Holy Father is prescribed; according to common opinion, however, five Our Fathers and five Hail Marys will suffice."

"Confession and holy communion."

"The confession and holy communion must be distinct from that made to satisfy the Easter precept."

"Alms giving to poor, or for some pious purpose, according to one's means."

"The indulgence of the jubilee is applicable to the souls in purgatory."

"The time specified for the jubilee is from low Sunday of March to the feast of the Immaculate Conception, December 8, of this year."

**ALLEGED THIEF CAPTURED.** Companion of Louis La Bille Also Taken Into Custody by Police.

Louis La Bille, eighteen years old, 8 14th street southeast, and Wallace Kendrick, giving his age as seventeen years, and his address as 1314 Penn street northeast, were arrested in front of a D street store this morning by Detective Mullen and Precinct Detective Harry Evans.

La Bille, it is charged, stole a quantity of jewelry from a show window at the store of John W. Hicks, 506 H street northeast, early Sunday morning and disposed of most of it. The police say he admitted the charge, and said he did not have an accomplice.

Kendrick met La Bille on the street this morning, and accompanied him to D street. An unloaded revolver was taken from Kendrick, and he was charged with carrying concealed weapons.

**INVITES INVESTIGATION.** District Workhouse Head Hears of Judge Pugh's Criticism.

W. H. Whitaker, superintendent of the District of Columbia workhouses at Occoquan, Va., returned today from Atlanta, Ga., where he attended the Southern Sociological Congress. Mr. Whitaker presented a paper on penal reform methods, and the congress by unanimous vote directed that the address be published in pamphlet form and distributed throughout the sixteen states.

Until his return to the city today, Mr. Whitaker had not heard of the recent criticism of Judge Pugh of the Police Court concerning the alleged large number of escapes of prisoners from Occoquan. The workhouse official said that he courts an investigation at all times as to conditions existing in the institution.

O. F. Phillips of Madison Heights, Va., died at his home Saturday aged eighty years. He is survived by eleven children.

**AUTHORIZES SUIT.** House Resolution Alleges Indebtedness of Missouri Pacific Railway.

Representative Neely of Kansas introduced a resolution today which would direct the Attorney General to proceed against the Missouri Pacific railway for collection of \$3,000,000 for the government, the outgrowth of financing by the government of the original railroad between Kansas City and Joseph, Mo., to the extent of \$1,000,000.

Successive assignments of the rights of way have given the railroad to the Missouri Pacific, and Neely urges that the government should be repaid with interest.

**UNIQUE RATE CASE DECIDED.** Commerce Commission Holds That Tunnel Makes Traffic Interstate.

In a case unique in the history of the interstate commerce commission it was decided today that a tunnel 1,500 feet long, wholly within the state limits of Kentucky, made the traffic via the Baltimore and Ohio from Huntington, W. Va., to points on the Norfolk and Western in the same state, interstate traffic, although only the tunnel is without the West Virginia limits.

The commission also held that the freight rates on steel rails and like commodities shipped by that route were unreasonable and reduced them.

**A Word to the Storekeeper.**

What kind of advertising are the manufacturers whose goods you handle doing for you?

Are they advertising merely to create a DESIRE for their products?

Or are they really trying to create a DEMAND?

General publicity may create desire for an article, but the only kind of advertising that benefits the retailer is the kind that creates demand—the kind that brings customers direct to the store.

The one effective way of linking the retail store with nationally distributed merchandise is to use daily newspaper space.

You, Mr. Retailer, understand the value of newspaper advertising.

Next time you talk with a manufacturer who wants to help you sell his goods through advertising tell him what you know about the efficiency of THE STAR and other good newspapers.
